NOTE:

Urine Culture

| Observations | Result | Reference / UoM | Date/Status |
|---|--------|------------------|---------------------|
| PT (Pro-Time) ¹ | 10.20 | 9.50-12.50 secs | 06/09/2023 02:17 am |
| Vendor note: Reference range for Prothrombin Time updated October 7, 2016 | | | |
| INR ¹ | 0.93 | 0.84-1.17 Ratio | 06/09/2023 02:17 am |
| Vendor note: Recommended therapeutic range for Oral anticoagulant therapy: <div> <div>Condition</div> <div>INR range</div> <div>-----</div> <div>Prophylaxis of Venous Thrombosis</div> <div>2.0 - 3.0</div> <div>Deep Vein Thrombosis</div> <div>2.0 - 3.0</div> <div>Pulmonary Embolism</div> <div>2.0 - 3.0</div> <div>Systemic Embolism</div> <div>2.0 - 3.0</div> <div>Valvular Heart disease</div> <div>2.0 - 3.0</div> <div>Atrial Fibrillation</div> <div>2.0 - 3.0</div> <div>Transient Ischemic attacks</div> <div>2.0 - 3.0</div> <div>Mechanical Prosthetic valves</div> <div>2.5 - 3.5</div> <div>Bileaflet Mechanical valve in Aortic position</div> <div>2.0 - 3.0</div> </div> | | | |
| PTT (Partial Thromb Time) ¹ | 26.40 | 20.00-40.00 secs | 06/09/2023 02:17 am |
| Vendor note: Please note updated reference range; January 6, 2017 | | | |

C-Reactive Protein

| Observations | Result | Reference / UoM | Date/Status |
|---------------------------------|--------|-----------------|---------------------|
| C-Reactive Protein ¹ | <4.0 | <5.0 mg/L | 06/09/2023 01:39 am |

Glycohemoglobin w/EAG

| Observations | Result | Reference / UoM | Date/Status |
|---|--------|-----------------|---------------------|
| Glycohemoglobin (Hgb A1C) ¹ | 5.2 | 4.0-5.6 % | 06/09/2023 02:14 am |
| Vendor note: Results from 5.7 to 6.4% are considered at risk for diabetes, or prediabetes. Results 6.5% or greater on two separate occasions are diagnostic for diabetes. Reference range updated August 28, 2017 to conform with ADA guidelines. | | | |
| Estimated Average Glucose ¹ | 103 | mg/dL | 06/09/2023 02:14 am |

Culture - Urine

| Observations | Result | Reference / UoM | Date/Status |
|--|--|-----------------|---------------------|
| Culture - Urine ¹ | **FINAL** Clean-Random voided midstream | | 06/12/2023 09:05 am |
| Vendor note: Coagulase negative Staphylococcus >50,000-<100,000 CFU/mL <div> <div>Antibiotic Name</div> <div>MIC mcg/ml</div> <div>Doxycycline</div> <div>S</div> <div>Nitrofurantoin</div> <div><=16</div> <div>S</div> <div>Oxacillin</div> <div><=0.25</div> <div>S</div> <div>Trimethoprim/Sulfamethoxa</div> <div><=10</div> <div>S</div> <div>Tetracycline</div> <div>2</div> <div>S</div> <div>Vancomycin</div> <div>1</div> <div>S</div> </div> <div> <div>Enterococcus spp</div> <div>DATE/TIME:06/12/2023 09:04</div> <div>>50,000-<100,000 CFU/mL</div> <div>Antibiotic susceptibility not performed.</div> <div>Amoxicillin is drug of choice for treating infections limited to the lower urinary tract. Alternate drugs nitrofurantoin or any quinolone.</div> <div>S = Sensitive R = Resistant I = Intermediate</div> </div> | | | |
